## NDT EXPO 2006 –

### Non Destructive Testing Product Showcase

The MUSEUM OF FLIGHT on Boeing Field in Seattle is one of the largest air and space museums in the world, serving more than 400,000 visitors annually from around the world.

Interested in testing and inspection or considering adding testing to your company's quality program? Exhibitors will be featuring the latest products used in testing materials for defects. Products will include X-Ray, Ultrasonic, Magnetic Particle, Penetrant, Eddy Current and Borescopes.

- A great evening to see the latest in NDT testing equipment
- Discuss your application and network with others in the NDT industry
- Free admission to the Museum of Flight that evening
- Hors d' oeuvres / No Host Bar

To Registration
